

Invitation

Introduction to Investing in Insurance Linked Securities (ILS)

You are cordially invited to a seminar with Swiss Re's Ernest Eng and Luca Albertini, who will share insights into the fundamentals of ILS, the global market and investor trends, benefits of diversification for investors, as well as the regulatory, fundamental and technical factors that will shape the market in Asia.

We hope you will be able to find time to join us for what promises to be a stimulating and productive session.

Date: 10 January 2007 (Wednesday)

Time: 09:30 Registration, coffee/tea
10:00 Insurance Linked Securities presentation
12:00 Lunch
13:30 Ends

Venue: Ballroom I, Level 2, InterContinental Singapore, 80 Middle Road, Singapore 188966

RSVP: by 22 December 2006 to
Alice_Chow@swissre.com or call +65 6232 3316

Investing in Insurance Linked Securities How can Asia capitalise?

Insurance-linked securities (ILS) are one of the fastest-growing and most dynamic areas of the capital markets today. Swiss Re is the world leader in the ILS sector, with a dedicated team providing origination, structuring, distribution and trading of ILS.

Since the inception of ILS a decade ago, nearly USD30 billion in worldwide insurance and reinsurance capacity has been created through its issuance, with much of the issuance linked to both natural catastrophe perils as well as life risks.

Faced with important regulatory changes, and a dynamic competitive and pricing landscape, insurers and reinsurers are using the bond and derivative markets to absorb an ever broader range of risks and manage their capital more efficiently.

The market is expanding, going beyond the traditional US and Japanese earthquake and US and European windstorms. Hear how Asia can capitalise on and participate in this dynamic investment market from the experts. We look forward to seeing you there.
