Fund Manager Survey

[No dramatic changes in institutional rankings](#)

Total assets under management (AUM) reported by fund houses in Asia outside of Japan and Australia in the latest *Asia Asset Management* survey came to US\$1.4 trillion according to data provided by respondents for the period to June 30, 2011. The total assets sourced were also at similar levels; institutional assets raised from Asia (ex-Japan and Australia) were about \$650 billion as reported by the participating firms while retail sourced assets were \$536 billion.

Five-Year Outlook: 2011 Edition

Every year, Northern Trust's senior investment professionals develop five-year forecasts for economic activity and financial market instruments. The primary driver of our five-year outlook is the "debt hangover" developed economies are suffering through and the possible monetary side effects of central banks' solutions.
